

FOR PET OWNERS

WHEN YOUR PET COMES TO SUMMIT.

Your veterinarian has referred your pet to a board-certified specialty team. Here is what to expect from us:

- A specialist who knows your case.
The board-certified doctor you meet is the one overseeing your pet's care.
- A clear conversation before decisions.
We will explain what is happening, your options, and what each one costs — before anything is decided.
- Continuous contact with your primary veterinarian.
Your records reach us first. Every step we take is shared back with the vet who knows your pet best.
- Focused medicine, by design.
Every resource here is dedicated to the patients we accept and prepare for.

BEFORE YOUR VISIT

Please bring with you:

- Any recent imaging or test results not already shared with us
- A current medication list
- Any questions you would like answered

SPECIALTY CARE,
WITH HEART.

Locally rooted.

FOR REFERRING VETERINARIANS

A REFERRAL IS AN ACT OF TRUST.

Here is exactly what you can count on when you send a patient to Summit:

- Over 60 years of combined specialty experience in Northern Colorado.
Long-standing relationships with referring veterinarians across the region.
- Direct specialist access — clinician to clinician.
When you call, you reach the team handling the case.
- Updates at every milestone throughout hospitalization.
- A complete case summary within 48 hours.
Every case, every time.
- The same specialists, year after year.
Independently owned and built for continuity.
- Your client relationship stays with you.
We support the case. We don't recruit the client.

HOW TO REFER

- 01 Call or email us.
We will contact your client within 24 hours.
- 02 Or have your client contact us directly.
A person answers — direct line to our team.
- 03 Case summary returned
within 48 hours.

OPENING AUGUST 2026

SummitVetCenter.com

SPECIALTY CARE, BY DESIGN.

Summit was built around a clear set of principles. We are a specialty hospital led by experienced Northern Colorado specialists who believe that exceptional medicine and a culture where people thrive are the same priority.

No walk-in emergency department — by design. Every resource here — every technician, every exam room, every piece of equipment — is dedicated to the patients we accept and prepare for.

We focus on a select range of specialties so we can hire the best doctors, build the deepest support teams, and deliver care we are genuinely proud of — every single time.

Together, our specialists bring over 60 years of combined specialty experience in Northern Colorado. The doctors you will work with at Summit are the same names your colleagues across the region know and have referred to for years.

ON-SITE CAPABILITIES

ADVANCED IMAGING

CT · MRI · Fluoroscopy · Digital radiography
In-house. Same-day diagnostics.

OUR PROMISE

A PATIENT HOSPITAL,
A FOCUSED TEAM.

Every patient at Summit gets the depth of attention complex care requires — every single time.

FOCUSED SPECIALTIES. EXCEPTIONAL OUTCOMES.

- **Orthopedics**
TPLO, fracture repair, ligament and tendon repair, joint surgery, and orthopedic trauma.
- **Soft Tissue Surgery**
Complex airway surgery, portosystemic liver shunts, GI surgery, hernia repair, and reconstructive procedures.
- **Surgical Oncology**
Fellowship-trained surgical oncology — one of fewer than 50 such specialists in the world. Published recurrence rates among the lowest ever reported.
- **Neurology & Neurosurgery**
Comprehensive diagnosis and surgical treatment for spinal, brain, and neuromuscular conditions — IVDD, epilepsy, brain tumors. MRI on site.
- **Ophthalmology**
The full spectrum of eye care — OFA exams, diagnostics, cataract surgery, glaucoma management, corneal repair.
- **Critical Care**
A board-certified criticalist dedicated entirely to inpatient care. Every hospitalized patient has specialist-level oversight.

SummitVetCenter.com

Every Summit specialist is board-certified, locally rooted, and invested in the care they provide — consistently, over time, and for the long term.
